Paprika Herbal Treatment: This treatment is used only after discussion with esthetician or at client's request.

Made from a blend of St. John's Wort, Sage, Walnut Leaf, Horseshoe, Marsh Mallow, Hungarian Cherry Pepper, Vitamin C, Bioflavanoids, Lavender Oil, Honey, Trace Elements, Vitamin B2 to regenerate and rejuvenate. The combination of these products is very stimulating, therefore the blood circulation increases and the body heat elevates immediately after application, raising the cellular metabolism to provide an oxygenating absorption. The stimulating effect of the herbs causes a tingling, hot, burn sensation for a short time (usually about 10-15 minutes).

Please feel free to give feedback to the esthetician during and after each session. Each person is unique and only through open communication can we maximize the experience for you.
